

Healthcare Professions History

Professions: A variety of health professions

Grade Level: 9-12

All HOTT lesson plans are designed with the purpose of increasing students' awareness of the variety of health careers that are available to them. If possible, invite the corresponding health professional into your classroom to discuss his/her occupation. If this is not an option, use the attached sheet(s) to share this/these career(s) with your students.

Purpose: To learn more about the history and current trends of health professions through research and presentation.

Materials needed: Computer with internet access

Duration: 1 to 2 weeks
