

Career Peek! Optometrist

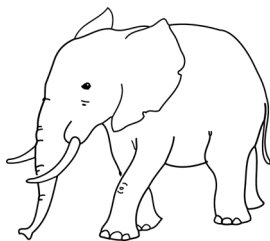

Name: _____

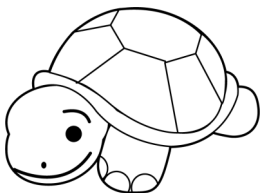

Take a peek at...

Optometrists are doctors who help people keep their eyes healthy. They give people check-ups, order glasses, and fix problems the patient has with their eyes. They check the patient's eyes for color, shape, and visual problems by using charts, tables, and tools.

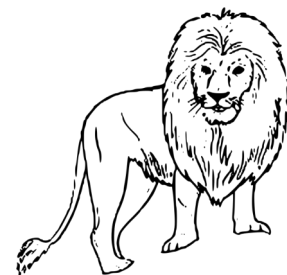

Draw a line to the letter in the chart to the picture that starts with the same letter. Not all the letters will be used.
